Amendment and Request for Reconsideration

IN THE SPECIFICATION

Please amend the specification as follows. Paragraphs that are being amended are listed in their entirety; changes are indicated in the left margin with a vertical change bar. Deletions are marked by ~~striketrough~~; insertions are underlined.

Amend the specification at page 8, line 8, to delete the second occurrence of "one of the", as follows:

The computer system 100 is configured to implement processing steps wherein
| at least one of the ~~one of the~~ Network Servers 106 or 108 receives user-specified
criteria for obtaining information from a database, which may be, for example, data
distributed in storage across the network or data located in a single data store.
